

MR Overlays & Positioning Solutions

accurate transfer from MR imaging to treatment

 **MRSeries™**

CIVCO®
Radiotherapy
a better way

MR Overlays

Universal Couchtop MR Overlays and Standard Overlays are made from fiberglass, feature Prodigy™ 2, Prodigy or Interloc indexing styles and are compatible with three-pin Lok-Bars™.

- Universal Couchtop is available on many major CT, MR, Proton and Linac models to provide seamless transfer from imaging to treatment.
- Three-Pin Lok-Bars offer the option to use existing MR-compatible devices by indexing them to the overlay

Universal Couchtop™

CIVCO offers overlays compatible with the following MR manufacturers:

SIEMENS | CANON | PHILIPS | GE

Lok-Bar options include Prodigy 2, Prodigy, Interloc and Elekta Unity MR-Linac

Three-Pin Indexing helps prevent MR Unsafe devices from being used.

Indexable positioning devices allow you to easily transfer from imaging to treatment.

Universal Couchtop™ MR Overlay & Adjustable Coil Holders Siemens MAGNETOM® Sola®, Aera®, Vida® and Skyra®

Adjustable Coil Holders support and position the body and head coils, allowing the patient to be imaged in the same position as they will be in treatment.

Head

Customize the coil position with infinitely adjustable, "set and lock" coil holders.

Body

Body coil supports allow the coils to be adjusted for angled placement.

SRS

MR These SRS solutions are MR Safe*

Solstice™ MR SRS Immobilization System

Variable pitch capability provides increased setup options in CT simulation, MR imaging (glass fiber version) and corrective positioning flexibility during treatment setup.

Pitch at 10 (chin up)

Pitch at 5 (neutral)

Pitch at 0 (chin down)

trUpoint ARCH™ SRS/SRT System

*Putty dispenser should be used outside of MR

Head & Neck

MR These Head & Neck solutions are MR Safe

Solstat™ Immobilization System

Highly customizable and comfortable patient setup for more accurate head and neck treatments.

Disposable Thermoplastics, Precise Bite™

GrayDuck Oral Positioning Stents

The only custom fitted bite block system that can position the tongue in one of several positions; laterally (left or right), depressing (downward) or a combination thereof.

Head Supports

M.C.Inspire Baseplate compatible with MRIdian® by ViewRay®

Uniquely integrates and aligns ViewRay's MRIdian head and neck coils with the high precision positioning provided by Solstat and Solstice SRS.

Overlays & Baseplates Type-S™, Posifix®, ProForm™ Proton

SBRT

Body Pro-Lok ONE™

- Provides one simple solution for complex SBRT patient setups.
- Respiratory Belt provides pneumatic compression and immobilization to the abdominal region.
- Variable height adjustment with just one bridge.

Body Pro-Lok™

Breast & Thorax

C-Qual M™ Breastboard with Monarch™ Overhead Arm Positioner

Integration with the Monarch Overhead Arm Positioner provides arms-up positioning, allowing proper superior/inferior adjustment of the board to the patient, helping reduce patient slide.

Wing Boards™

Chabner XRT® Radiation Bra

- Provides optimal breast support during simulation, planning and radiation treatment, including proton therapy.
- Washable, reusable fitting bras provide a unique solution to properly size the patient.

Hip & Pelvic

Combifix™ 3

Provides enhanced positioning for the pelvic region and other lower extremities.

MR Bellyboard

HipFix® Baseplate

Patient Cushions & Positioning Aids

Kneefix™ 3 & Feetfix™ 3

Vac-Lok™ Cushions

Multipurpose Support Cushions

LiquiMark MRI Markers

FusionCoil™ Fiducial Markers

PolyMark™ Fiducial Markers

MRSeries™

MRSeries products are intended for use in the MR environment. Always refer to product labeling to identify whether a device is MR Safe  or MR Conditional.
